

TONAL WHITE COLLECTION

ARCHITECTURAL
HARDWARE

TONAL WHITE COLLECTION

Tonal White Collection is pba's new line of levers, door pulls, and millwork hardware inspired by the 2026 soft-white trend. This lofty, calming white serves as a true architectural 'structure' - a versatile foundation that transcends mere finish to become pure atmosphere. The design language is defined by a clean, essential rigor: flat geometries and crisp edges meet an ultra-matte white coating that reads as pure light. Every model is precision-engineered in aluminum, offering consistent, contemporary performance, and is paired with tonal leather inserts providing a warmer, more tactile grip, ensuring a sensory experience that maintains the collection's seamless aesthetic without visual interruption.

LEVERS

TONAL WHITE COLLECTION

ITEM

2AM.001.0UT8

Handle for Wood or HM Doors

PBA PRODUCTS CONTRIBUTE TOWARD SATISFYING PREREQUISITES AND CREDITS UNDER LEED

LEED® (Leadership in Energy Environmental Design) is a voluntary certification system for the management, design and construction of buildings that are sustainable from a social, environmental and economic point of view and in terms of the wellbeing of the users. Established in the United States in 1993 by the U.S. Green Building Council (USGBC), LEED is now the most widespread building sustainability certification standard in the world. It considers every field that involves the design and management of buildings or neighbourhoods, both commercial and residential new or undergoing requalification.

DECLARE LABEL

Tonal White Collection offers a Declare Label Red List Free. The Declare Label is like a nutrition label for the building industry. It is a product transparency disclosure that lists the ingredients in products to help customers ensure healthier indoor living environments. It discloses where a product comes from, the materials it is made from, and its end-of-life pathway. The International Living Future Institute hosts a transparency platform and product database featuring Declare that helps stakeholders in the building industry find products free from hazardous substances. The Declare Label has been approved as a compliance pathway for the green building certification system LEED v4. Declare labels that achieve a declaration status of “Red List Free” fulfill the credit disclosure requirements. The Red List contains the worst in class materials prevalent in the building industry, which pollute the environment, bio-accumulate to toxic levels in the food chain, and/or are harmful to construction and factory workers.

ENVIRONMENTAL PRODUCT DECLARATION (EPD)

Tonal White Collection has the Environmental Product Declaration (EPD). An EPD is an ISO Environmental Declaration based on ISO 14025 and ISO 21930 standards, that transparently reports the environmental performance of products or services from a lifecycle perspective. The preparation of an EPD includes different stages, from acquiring raw materials to the end of life of the final product. EPDs are based on international standards and consider the entire value chain. Additionally, EPD is a third-party verified document.

WARNINGS

Differences in the finishing of (different) components are due to the different production methods. These variations are not considered defects and are a natural result of the finishing process. The manufacturer reserves the right to alter, improve and discontinue any features of the product (make changes and improvements in designs and dimensions) without notice.
