Per proteggere quello che fin qui abbiamo conosciuto come il migliore dei mondi possibili, è necessario sceglierne finanche il più piccolo particolare. Impugnare la qualità, sapere come sono fatte le cose e come vivono le persone che le fanno, non è una possibilità, ma l'unica arma per la vittoria.

To protect what we have known as the best of possible worlds, it is necessary to choose the smallest detail. Grasping quality, knowing how things are done, and how people do it, is not a possibility, but the only weapon to win.

Pour protéger ce que nous avons connu comme le meilleur des mondes possibles, il faut choisir le moindre détail. Saisir la qualité, savoir comment les choses se font et comment les gens le font, n'est pas une possibilité, mais la seule arme à gagner.

Erfahrenes sowie Bekanntes als das Beste zu erkennen, erfordert die Sensibilität zur Wahrnehmung kleinster Details. Hohes Qualitätsbewusstsein sowie die Kenntnis wie Dinge zusammenwirken und sie von Menschen verstanden werden sind maßgebliche Elemente zur Sicherstellung des Erfolgs.
