-GOLD and INNOVATION: *TOCCO Collection by pba* by **ECONYL by Aquafil**: The TOCCO Collection by pba is the first door hardware collection specifically designed to address sensory sensitivity. Considering the neurodiverse population by creating inclusive designs, the TOCCO pulls and levers are offered in an infinite range of colors and two different handle grips - smooth and textured. The grip of the TOCCO Collection is made of ECONYL® nylon, a soft material with a temperature similar to that of the environment, minimizing thermal stimulation. All TOCCO hardware is made with ECONYL® nylon and stainless steel, and is constructed to be easily dismantled and recycled at end of life. [aquafil.com](https://www.aquafil.com)
